

SUPAVAC

THE TINY POWER PACKED DEVICE SAVING VALUABLE HOURS IN WORKSHOP AND GENERAL CLEAN UP TIME.

THE SUPER DRAGIN PUMP™

Solve your liquid clean-up challenges simply and affordably with this versatile compressed air powered vacuum system that converts metal drums into supercharged wet vacs.

- Clean up liquids and suspended solids simpler & faster
- Reduce manual labour and the use of expensive clean-up consumables.
- A single low-cost investment that will last you years.
- Potentially saving you \$100s-\$1000s on cleaning up.

The Super Dragin Pump has been road tested over the last 30 years, used in real commercial liquid spill & waste disposal environments. It has proven it's durability and versatility over & over again.

SUPAVAC

"The Super Dragin has been a huge game changer for us"

DELTA INDUSTRIAL

A Versatile Way to Clean Up Your Liquid Spills That Could Save Your Business \$1000's".

Unlike regular wet vacs there are no moving parts to break down, burnout or block up! Gone are the days of burnt out electric vacuums, blocked diaphragm pumps and slow manual liquid and sludge transfer. You may even be able to stop hiring expensive vacuum trucks for small liquid clean-up jobs as well as reduce the use of expensive consumables like absorbents and rags for spill clean-up.

Easily Clean Up Liquids Such As:

- WATER • DIESEL • COOLANT • WASTE OIL
- INK • PAINT • GEAR OIL • MUD
- SLUDGE • CONCRETE SLURRY + MORE
